

# Cordpro<sup>®</sup> Holiday Organizer™

## Installation and Use Instructions

MODEL HO-100

### SET INCLUDES:

- 6 Organizer Shell Halves (Makes 3 Organizers)
- 1 Bulb Caddy for Storing Spare Bulbs

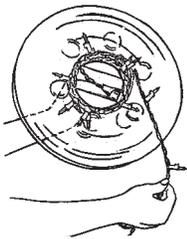

#### 1. ASSEMBLY OF ORGANIZER

Line up Velcro® pads on 2 shell halves and push together.  
NOTE: "Hook" pad must be pushed onto "Loop" pad.

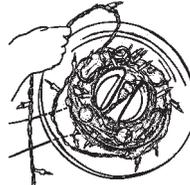

#### 2. WRAPPING ORGANIZER

Insert one end of item into channel between handles and begin wrapping item onto organizer.

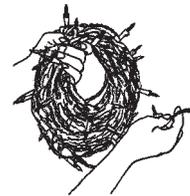

NOTE: When wrapping mini lights onto organizer, insert "female" plug end into channel and then wrap. This will allow access to the male end to test lights prior to decorating.

**CAUTION:** POWER LIGHTS ON REEL ONLY FOR TEST. Powering for extended periods on reel may cause overheating.

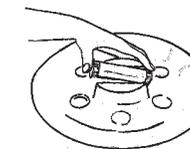

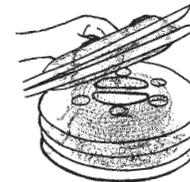

#### 3. USING ORGANIZER

While decorating, either unwrap item from organizer or pull shell halves apart and remove neatly coiled item.

#### 4. STORAGE OF ORGANIZERS

After loading, organizers can be stacked on each other for storage. Line up "bumps" (male to female) on surface to prevent organizers from sliding off of stack.

#### 5. SPARE BULB CADDY

Remove one cap from end of bulb caddy to insert spare bulbs. Caddy can then be snapped into channel between handles for storage and convenience.
